Education

Sri Shakthi Institute of Engineering and Technology

B.E in Computer Science and Engineering

2023 – 2027

CGPA: 8.61

Geethanjalee Matriculation Higher Secondary School

Class XII

2023

Percentage: 86.5

Experience

TeemBinSys | Software Development Engineer Intern

Bangalore | April 2024 – Dec 2024

- Developed a scalable application to centralize patient records, IT support tickets, and doctor schedules, reducing administrative workload by 40% for a 50+ employee healthcare facility.
- Built a location-aware scheduling system using Google Maps API + ML, serving 500+ monthly users with personalized clinic recommendations, improving booking efficiency by 30%. Optimized data flow and component rendering logic, **reducing load times by 30%** and enhancing overall responsiveness.
- Optimized route algorithms to reduce no-show rates by 20% via SMS/email reminders tied to travel time estimates.
- Trained an ML model for biometric voice verification, achieving 95% accuracy and reducing fraudulent account access by 60%.
- **React.js, Spring Boot, Java, PostgreSQL, Python, Flask, scikit-learn, Google Maps API, RESTful APIs, Git, Docker.**

Freelance | Full Stack Developer

Coimbatore | June 2023 - May 2025

- Delivered 15+ web apps for startups, improving client revenue by up to 35% through optimized UX.
- Managed end-to-end development, from UI/UX design to backend functionality, ensuring cross-platform compatibility and optimized performance.
- **React JS, HTML, CSS, JavaScript, MySQL, Postgre SQL, Python, Flask, Django, NodeJs, MongoDB, Android.**

Projects

NoteFlow AI | React-native, MongoDB, Gemini-2.0 Flash, Kotlin, Sqlite, Docker

 [github.com](#)

- Built an **Automated background classification** of uploaded documents using Zero-Shot Classification MNLI Model achieving **92%+ accuracy** across academic, legal, and technical domains via Android's WorkManager services.
- Built a **context-aware document chat system** integrating **Gemini 2.0 Flash** and Retrieval-Augmented Generation (**RAG**), enabling real-time summarization and MCQ generation with.
- Developed a video link chat assistant using **Gemini 2.0 Flash**, extracting transcript embeddings via RAG to deliver key-point summaries and AI-driven Q&A over YouTube links and lecture recordings.
- Integrated **Pinecone** VectorDB for semantic search and context storage, and **MongoDB** for user document metadata, enabling fast retrieval.

Motren Connect | Python, MERN, Fast api, React-native, Gemini-2.0 Flash

 [github.com](#)

- Built a scalable **MERN stack** platform with < 500 ms latency and deployment 99.5% uptime.
- Integrated **LLM-based matching** (Gemini-2.0 Flash) to auto-pair contributors with projects, boosting funding by 35%.
- Developed **ML validation engine** (Python, 92% accuracy) to reduce fraudulent project submissions.
- **Social impact:** Facilitated \$50K+ funding for 15+ verified projects (e.g., edu-tech for orphanages).

ShopMart | Python, Fast api, React-native, Huggingface, AR-kit, Unity, RazorPay, Gemini-2.0 Flash

 [github.com](#)

- Built **AR indoor navigation** (Unity+ARCore) reducing customer search time by 40%, with **one-tap QR** entry for seamless store access.
- Integrated **LLM-powered recommendations** (Gemini-2.0) + **auto-billing** (YOLO - object detection) for cart items.
- Integrated **one-tap Razorpay** checkout, processing 500+ test transactions.

Technical Skills

- **Languages:** C++, C, Javascript, Java, Python
- **Technologies/Libraries:** Html, CSS, Express Js, Mongo Db, SQL, Numpy, Pandas, Matplotlib, Tensorflow, Pytorch, Roboflow, Node Js, Django, Flask, Spring Boot, React Js
- **Relevant Coursework:** Data Structures and Algorithms, Database Management System, Operating System, Object Oriented Programming, Machine Learning, Artificial Intelligence, Linear Algebra, Software Engineering

Achievements

- **Google Summer of Code 2025** – Contributed to **RocketChat** open-source community
- **Rank 14** in National level Coding competition Organized by Newton College of Engineering and Technology.
- **Top 5%** in LeetCode contest among 50k+ global participants.
- Secured LeetCode **Knight Level** by achieving **highest rating of 1890**
- Solved **1000+** problems on LeetCode and other platforms – demonstrating strong DSA proficiency.
- **Ranked 3rd** in National Hackathon on Generative AI (2025), building an AR-navigation for digitally automated stores.
- **Mentored** 200+ junior developers in data structure and algorithms through peer programming workshops - demonstrating **Mentorship and Collaboration**.
- Secured rank in the **top 1.5%** of over 1 million applicants in **JEE Mains 2023**.
